ANOTHER RAILROAD PROPOSED.

Electric Line St. Louis Man Rehind the Proposition.

John D. Orear, of Mexico, accomsanied by a well known St. Louis mil-B. L. Locke was a delegate to th maire, spent Nonday in Paris in the The greatest wealth of this section istian Sunday School convention interest of another proposed electric however, is not developed by rousen of not having a market. Wealth lies motion. His had been over the route between the there like a giant asleep waiting to run was to be between St. Louis and two points and were greatly impressed be roused. This electric road wil with the country and its natural ad-vantages for such an enterprise. The vantages for such an enterprise. The St. Louis party for reasons best known tion of an electric road is an entirely to himself, desired that his name be different proposition for the benefit of not used in connection with the prothe farming property from the co eet at present, but assured an Appe struction of a steam railway through man that if the people of Mexico and Paris and the farmers along the line the same section. The steam rallway may run through your farm, yot you would show their faith in the project may have to drive six miles before yo to the extent of subscribing for on fourth or one-third of the stock he would furnish all the rest and push But this proposed electric road wil the road to an early completion. He the road to an early completion. He put in a switch on any man's farm estimated the cost of building the put in a switch on any man's farm estimated the cost of building the put in a switch on any man's farm road, equipped with power house and road it crosses or at convenirolling stock at \$300,000.

In reference to the matter Mr. Orear sald: "The matter at present is in the

embryo stage, but we hope befor long to have something doing in the way of construction. It is our pres ent intention to locate the power house at Paris with a view to uiti mately extending the road to Shelbin and Shelbyville. With the exception of a few miles, the country along the proposed route is so level that the ost of building would be comparative y small. It is our intention to bull a standard guage line so that car loads of stock and freight can be delivered to St. Louis and Chicago roads with out the expense of a transfer. The distance to St. Louis from Paris would be shortened lifty miles and with both the Wabash and C. & A. com peting for the business the very low est freight rates could be secured.

"Young men and women desiring to attend college at Mexico could go from for \$10 per day, leaving him \$14.00 per day point on the line in the morning day. His figures may be a little any point on the line in the morning and return to their bomes at night and thus eliminate the usual bor bills. Farmers along the line could market their produce at any hour in the day. The road would enhance the value of every farm it touched and if not, they can sell their land for the prove a blessing to the people in a 10 \$15 an acre more the day the elendred different ways. tric road runs through or near the

"Our project is entirely independent farm. Electric roads in Ohio, India of all others. That it would pay na and Illinois, built to transpor there is no doubt. Such routes are in both passengers and freight, have ad peration in many parts of the counded big value to the adjac try and every one of them has been and have been paying investmen the biggest kind of success."

Are You Drunk or Aslesp

In an address under the auspices the St. Louis Probibition Alliacue at the Church of the Covenant, 2540 freight and passengers to these stea North Grand avenue, Tuesday evenroads for through business, also the ing, Chairman Charles E. Stokes of local freight and passenger busine the Prohibition State central committee made statements to startle the

conservative. His subject was "The Liquor Trafile vs. Manhood and the Church." Mr. Stokes lives at Mexico. "One half the world," said the

speaker, "is drunk. The other half is "The perpetuation and welfare of the nation depend upon the preserva-

tion of manhood. "The increase in population in the United States during the last ten years has been less than a third as large as the increase in the consump-

"If that ratio is continued much onger the government would lietter ove the torch from the uplifted hand of the Statue of Liberty and place in its stead a bottle of beer.'

6 W Grove

The members of Lady Washington Hive, No. 3, met Friday afternoon, May 54, at which time nineteen candidates were initiated. This was one of the best attended and

most enjoyable meetings this hive road, as the fare will be so cheap has had this year. Washington Hive Misses Hattle Jackman and Lulu is in a most presperous condition and or Mexico. To the public interested every meeting this year have had to- would say, study this proposition care After the close of the session Fri-ests with hot air, as that is used exday refreshments were served.

An electric railway from Canada to proposing to travel that way the Gulf is planned by Iowa promoters. I feel highly encouraged over the
